MEMO FOR: Rear Admiral Robert L. Dennison
Naval Aide to the President

Herewith at long last is a unanimously agreed upon analysis and recommendations of Gordon Gray's report which you send me at the direction of the President.

I suggest that this analysis be sent to Mr. Staats of the Bureau of the Budget for any additional comments which might be pertinent. I have talked this over with Staats and this would render unnecessary a rather lengthy and similar analysis on which the Budget Bureau has been working.
